Subject: RE: *EXT*Wadsworth - Defense exhibits

Abla,

The TestCoo sample report is an exemplar exhibit. We do not have the report from the subject hoverboard as the serial number was not identifiable post fire. The exemplar report was not produced in discovery.

Becca is forwarding a new link very shortly with the corrected bates stamp.

Thank you. One other question – was looking through your exhibits and came across the attached TestCoo Sample Report. I don't recall seeing this in any of the jetson production documents we have. Can you please tell us whether this was ever produced in discovery and if so, when?

Mr. LaFlamme – noticed that your exhibits are bate stamped with the wrong case number. Will you be re-doing them? Wanted to check before we proceeded with downloading.

Importance: High

Good afternoon, below is a ShareFile link with Plaintiffs' Trial Exhibits. Please see below notes.

<https://link.edgепilot.com/s/2033b1a4/lKQ3z08ofk24Lm4b6kOBBQ?u=https://pkblawfirm.sharefile.com/d-s8d477803e4784ec1a8aeae809e82af9e>

Notes:

- Medical records – these are redacted for the most part, but we are doing one final review, and if we see any that need to be swapped, I will add it to the above link and let you know
- Exhibits 184-187 and 247 are the UL Standards and NFPA 921. Will supplement upon receipt.
- Exhibit 70 – this is the large CT scan file; we included a cover sheet and a link to the CT scans which all parties should already have access to (otherwise it will take days to upload).

Let me know if you have any questions or issues accessing the link above.
